

Flat-Flex[®] Hand Tool Kits

Wire Belt's new range of hand tool kits, all your tools in one place stored in a durable carry case. These kits are ideal for your maintenance teams to aid installation and maintain your Flat-Flex Belts, keeping your belts running in optimum condition.

Each kit contains a comprehensive Flat-Flex Support Guide with detailed maintenance and joining instructions, troubleshooting guide and potential causes of downtime.

FLAT-FLEX[®] 0.90 TO 2.35MM WIRE TOOL KIT Part Number FFKIT-0.90-2.35

A comprehensive tool kit, designed for OEM customers and large end-user sites that utilise the full range of Flat-Flex[®] belting. From delicate product transfer to heavy duty fryer applications, this kit provides the engineer with all the tools necessary to ensure a safe and consistent join.

Each kit contains:

- Eddie Wire Straightener
- Universal Cutting Nippers
- Side Cutting Pliers
- Needle Nose Pliers
- Fine Wire Cutting Pliers

FLAT-FLEX[®] 0.90 TO 1.27MM WIRE TOOL KIT Part Number FFKIT-0.90-1.27

A tool kit developed for fine wire applications, such as chocolate enrobing and other confectionery processes. Each tool has been specially selected for robustness and user comfort when working with high tensile music wire. A well-maintained enrober belt will provide safe and consistent operation, whilst preventing product marking through broken and deformed strands.

Each kit contains:

- Eddie Wire Straightener
- Needle Nose Pliers
- Fine Wire Cutting Pliers

FLAT-FLEX[®] 1.27 TO 2.35MM WIRE TOOL KIT Part Number FFKIT-1.27-2.35

A compact tool kit, suitable for medium to large wire diameters common to poultry and sea-food processing applications. The combination of Side Cutting Pliers and Eddie Wire Straightener assists the joining process for heavy gauge wire belts, reducing down-time and increasing reliability.

Each kit contains:

- Eddie Wire Straightener
- Universal Cutting Nippers
- Side Cutting pliers
