## Introducing **TC-327™**

### Engineered to cool tortillas.

Have you switched your tortilla lines to modular plastic conveyor belting because you wanted longer belt life? Is your product not cooling properly or sticking together during packaging? Not happy with the results from your plastic belt?

Wire Belt has the solution you need. Introducing **TC-327**, Wire Belt's latest conveyor belt innovation. Want longer belt life...you've got it. **New TC-327 will last two years guaranteed!** Made of high-quality stainless steel, TC-327 won't leave your product wet or moist since the belt takes the heat away from the tortillas. TC-327 also provides optimal product support while its 76% open surface area still allows maximum air flow through the belt to completely cool tortillas. Did we mention it's guaranteed for two years?

### TC-327 advantages:

- **NO-RISK 2-YEAR BELT LIFE GUARANTEE!\***
- Made of high-quality stainless steel
- Provides superior product support
- 76% open surface area maximizes airflow through the belt
- Cools tortillas faster and more complete than plastic belts
- Wastes less of your product
- Does not stretch or sag like plastic belts
- Manufactured with C-CureEdge® to prevent belt lines from catching
- Includes EZSplice® splicing strands for stronger, long lasting splice joints
- Cleans more easily than any other belt for the tortilla industry
- Kit comes with everything needed to easily retrofit to your conveyor
- Will not catch fire

### TC-327 kit includes all you'll need:

- Your specified length of TC-327 belt with C-CureEdge
- TC-327 sprockets & blanks
- Two EZSplice splicing strands
- Splicing tool set
