wirebelt®

THE TRUSTED METAL CONVEYOR BELT MANUFACTURER™

WIRE BELT TOOLS

THE PROVEN CONVEYOR BELT TECHNOLOGY

BELT MAINTENANCE TOOLS

WWW.WIREBELT.CO.UK

TOOLS BY WIREBELT

Engineered for efficiency and reliability, Wire Belt's range of repair and maintenance tools helps keep your conveyors performing at their best. Used daily in production facilities around the world, these proven tools enable faster maintenance, reduced downtime, and uninterrupted operation.

TOOLS BY wirebelt

	NAME OF TOOL	ICON	PART NO	BELT
1	SIDE CUTTING (FLAT NOSE) PLIERS		017003	

- The jaws remain parallel throughout thier range of movement giving a positive grip.
- The Jaws are knurled with a single longitudinal V-slot Wire can be fed through the throat of the plier from either end and held firmly over the length of the jaws.
- Anti rust finish with bright nickel plated handles and fully heat treated and chemically blackened jaw and cutter.

2	FINE WIRE CUTTING PLIERS		017004	

- Suitable for use with high tensile music wire belts
- Slim profile head for cutting tightly-pitched belts common to chocolate enrobing processes
- Leverage reduces force expenditure by 40%
- Spring return

3	MICRO SHEAR WIRE CUTTERS		017005	

- The self sharpening design gives good mechanical advantage enabling wire to be cut with no loss of sharpness.
- Compact design with spring return, heat treated and chemically blackened.
- Suitable for wire up to 1.27mm

4	WIRE STRAIGHTENER		017007	

- High quality wire straightening tool.
- Remove distortions in the wire and adjust Z - bends
- Perfect for opening and closing C - Cure Edge® loops.
- Suitable for wire diameters from 0.90 to 2.35mm.

5 UNIVERSAL CUTTING PLIERS

017008

- Micro-structured cutting edge suitable for cutting all Flat-Flex® belting.
- Gripping surface below the joint suitable for wire diameters from 1.00mm to 4.00mm
- Multi-component handles with intergrated spring return and locking device. The compound lever design gives good mechanical advantage.

6 EZ SPLICE™ MULTI HEAD PROFILING PLIERS

017009

- Individual heads for each pitch and wire combination within the EZ Splice™ range.
- Crimps joining strand to ensure a secure belt join with a flat carrying surface.

TOOL SPEC

7 EZ SPLICE™ CLOSURE TOOL

017010

- EZSplice™ closure tool for 2.8mm wire.
- Crimps joining strand to ensure a secure belt join with a flat carrying surface.

8 LADDER TRACK™ CLINCHING PLIERS

017012

- Purpose built tool facilitates easy opening and closing of Ladder Belt edges for joining

9 COMPACT GRID® PLIERS

017013

- Custom designed Compact-Grid® Tool kit to make splicing as simple and easy as possible
- Each tool kit contains two Compact-Grid® Levers, and one set of Compact-Grid® Pliers.
- The tools provides a perfectly shaped crimp, making the splice joint complete without damaging surrounding wire strands or over-crimping the splice strand.

10 NEEDLE NOSE PLIERS

017018

- Slim, elongated design allows easy access to confined spaces during belt installation, maintenance, and repair tasks.
- Durable, high-quality Knipex construction ensures reliable performance in demanding industrial and conveyor belt maintenance environments.

- **Our Full range of Belt Maintenance Tools are available at www.wirebelt.co.uk**
